LEGISLATIVE ADVOCACY & DENPAC

WHAT LAWMAKERS DO AT THE STATE CAPITOL CAN AFFECT WHAT YOU DO IN YOUR OFFICE EVERY DAY. LUCKILY FOR YOU, TDA IS THERE.

From major wins with dental insurance to preventing unwarranted scope expansions, TDA's effective relationship with the state legislature is key to **protecting your practice and the patients you serve.**

In 2025, TDA achieved a historic win for Texas dentists by improving Medicaid Dental funding - the biggest increase in 18 years! TDA also secured new safeguards for DIY orthodontic appliances, successfully defended against anti-fluoridation measures, championed anesthesia coverage for kids who need it most, and blocked a risky dental licensure compact that threatened our standard of care. To learn more about the recent legislative wins for Texas dentists and patients, head to tda.org/advocacy/legislative

TDA works with the Texas legislature to make sure dentists are involved in the legislative process. Together, we help **ensure your career and your patients are safe.** That means dentists and patients win.

But TDA can't do it alone. We need our members to **invest in DENPAC** to ensure we keep our seat at the table when important decisions are being made.

DENPAC is TDA's political action committee. It's a voluntary, nonprofit group made up of member dentists whose goal is to support candidates for state office who care about preserving organized dentistry and improving dental health for all Texans. Visit denpac.org to learn more and join now.
